

HOW TO USE THE EVO DAC TWO

1. Standalone. Connect the Evo DAC Two between a computer and your hifi system to listen to audio files, satellite audio and CD's. The Evo DAC Two may be powered by the computer or by a wall adaptor. Easily control both the Evo DAC Two and the player program on the computer from your sofa by the remote control provided with the DAC.

2. Maximize performance. Add the Evo Supply Two to power the Evo DAC Two with stable, clean energy. Your music files and your Cd's will sound like never before.
